CAREER SUMMARY

Dedicated and enthusiastic BCA-SE student, recently completed the second year, with hands-on experience in full-stack web development using the MERN stack, I have developed strong problem-solving and analytical skills in C and . My internships have given me practical experience in building real-world web applications, and contributing to team-based software projects. I'm eager to apply my technical knowledge and grow in a dynamic, IT-focused role.

SKILLS

- **Programming Languages:** - C
- **Frontend** – JavaScript,Tailwind
- **Backend** – Node.js, Express
- **Database** – MongoDB,
- **Tools** - GIT, MS Office tools
- **Soft Skills:** Problem solving, Critical Thinking, Excellent communication & Leadership skills

EDUCATION

Bachelor of Computer Applications (BCA)

September 2023- May 2026

Geeta University, Panipat

Roll No:2309301055

WORK EXPERIENCE

Software Engineer Intern

CQST - Panipat

June -July 2025 - (2 months)

- Learning and applying **frontend development concepts** using core JavaScript, focusing on DOM manipulation and event handling in real-world practice projects.
- Building interactive projects such as a **To-Do List application** to strengthen problem-solving and UI handling skills.
- Developing small applications like a **Discussion App** to understand user interaction, dynamic content rendering, and state management on the frontend.
- Gaining practical exposure to **HTML, CSS, and JavaScript integration**, enhancing hands-on experience in creating responsive and user-friendly interfaces.

Software Engineer Intern

CQST - Panipat

June -July 2025 - (2.5 months)

Backend (Node.js + Express)

- Learning and applying backend development concepts using Node.js and Express.js, focusing on request handling, routing, and middleware in real-world practice projects.
- Building server-side applications such as an Authentication System to strengthen problem-solving and session management skills.
- Developing small projects like a File Upload App to understand API creation, data flow, and error handling in backend development.
- Gaining practical exposure to RESTful APIs, request/response lifecycle, and Express.js modules, enhancing hands-on experience in building scalable server-side applications.
-

ACADEMIC PROJECTS

Alarm Clock |, Node.js, Express, MongoDB

- Built a custom alarm scheduling system with real time triggers and audio playback controls
- Implemented Mongodb for managing alarms with responsive UI.

ECCOMERCE WEBSITE | HTML, CSS, JavaScript | Express.js | MongoDB

- Built a **role-based authentication system** for users and admins with secure product and order management.
- Implemented a **shopping cart and order management system** using MongoDB with full CRUD operations.

COMPILER | HTML, CSS, JavaScript , API

- Created a real-time compiler for main 4 languages **C,Python,C++,JAVASCRIPT**
- Implemented **code optimization and intermediate representation generation** to improve execution efficiency.

Quiz-Web App | HTML, CSS, JavaScript

- Created a real-time quiz platform .
- Implemented smooth UI with instant question updates and score tracking.

DISCUSSION APP | HTML, CSS, JavaScript

- Developed a real-time cricket scoring application with dynamic run and over tracking.
- Designed an intuitive UI to enhance usability during live match scoring.

CERTIFICATIONS

- Introduction to MongoDB - MongoDB
- Introduction to PromptEngineering ByPromthaton
- Completion of TUTEDUDE'S Web Hackathon
